Loving Lavender

Presented by

Mary Jones, Owner of Scented Acres Lavender Farm

Love the idea of growing lavender in your yard? Know much about the history? Join us to learn about that and more; how to grow, prune, harvest, dry and clean it too! Everything you need to know to get started. Grow your own and reap the benefits (pun intended). Learn about Mary's farm and see what lavender treats she brings. She will also have lavender products from her gift shop and a small selection of plants for sale. Questions welcome!
